NESCS Superintendent Workshop

Superintendent Workshop with Dr. Phil Warrick

All NESCS superintendents are encouraged to register!

In this workshop, Dr. Warrick will guide superintendents through the Marzano school leader evaluation scales and will reveal how those scales can best be used to inform principal evaluation. Specific scales will be used to study samples of practice, followed by a discussion about what principals might be encouraged to do to continue their growth as school leaders.

Don't miss out! Learn how to enhance your principal development strategies!

Note: This professional learning experience directly relates to and supports NESCS schools' recent efforts with teacher evaluation, school improvement, and the *High Reliability Schools* initiative. While Dr. Warrick is a Marzano associate and will be referencing Marzano resources, this experience is highly applicable to *all* NESCS-member schools no matter what evaluation framework is used (Marzano, Danielson, Marshall or DPI's PTESS). The strategies and conversation planned for this workshop can be beneficial in *every* school!

About Dr. Warrick:

Phil Warrick, EdD, is associate vice president of Marzano Research. He was an award-winning administrator in Nebraska for nearly 12 years, most recently as principal of Round Rock High School, which serves nearly 3,000 students.

Dr. Warrick was named 2005 Nebraska State High School Principal of the Year, 2004 Nebraska Secondary School Principals Region One Principal of the Year, and 1998 Nebraska Outstanding New Principal of the Year and Nebraska Secondary School Principals Region One Assistant Principal of the Year.

Dr. Warrick has worked with the NESCS for the past two years leading the *High Reliability Schools* Academy.
